PROFILE

I am a Full Stack Developer specializing in Laravel and Vue.js, building scalable business systems and platforms such as ERP systems, admin dashboards, and APIs. I have a strong focus on writing clean code, achieving high performance, and designing robust architectures that ensure long-term scalability and maintainability. I transform business requirements into practical and efficient software solutions aligned with modern technology trends, especially AI-driven development.

WORK EXPERIENCE

Full Stack Developer — Dorr, Saudi Arabia (Remote) 07/2024 - Present

- Built and maintained Laravel APIs for iOS & Android applications.
- Developed Vue.js admin dashboard for system management.
- Implemented secure authentication using JWT / Sanctum.
